Foaming Oven Cleaner

FUME FREE

PENETRATING • GREASE CUTTING • CLINGING

Effectively cleans warm or cold ovens. Ideal for cleaning ovens, grills, hoods, broilers, rotisseries, drip pans and stainless steel. NOTE: Do not use on aluminum or copper.

DIRECTIONS

SHAKE WELL BEFORE USING. Protect floor with newspapers. Do not allow cleaner to drip off closed oven door onto painted surfaces. Heat oven to approximately 200°F and then turn oven off. For gas ovens, turn off burners and pilot light! Hold can upright, point valve away from eyes, and spray a light, even coating on oven or other surface, from 8 to 12 inches away. Spray sides and top of oven first, then thoroughly spray remaining oven surfaces. Allow cleaner to work for 5 to 10 minutes—stubborn spots may take longer. After cleaner has remained on surface, thoroughly rinse with potable water. Retreat difficult spots if necessary. After using this product, thoroughly rinse all cleaned surfaces with potable water then place back in oven. Pre-heat cleaned oven for ten minutes before using. In case of skin contact while spraying, wash with soap and water.

NOTE: In federally inspected meat and poultry plants, the use of all cleaning compounds must be followed by a potable water rinse. Protect floor with newspapers. Cover lights, light fixtures and thermocouples inside oven. Do not allow cleaner to drip onto painted surfaces. Prolonged contact with glass may cause etching. Do not use on copper or aluminum. Be certain all pilot lights have been extinguished.

HIGHLIGHTS

- Cleans carbon, grease and baked on foods
- Works in minutes or overnight
- Works in cold or warm ovens

TYPICAL PROPERTIES

- Specific Gravity: 1.05
- pH: 11.5-12.5
- Propellant: Hydrocarbon
- Spray Characteristics: Clinging foam
- Odor: Butyl
- Net Weight: 15 ounces

SAFETY CAUTIONS

Keep out of reach of children. Read label and SDS before use. Flammable aerosol. Causes severe skin burns and eye damage. Contains gas under pressure; may explode if heated. May be corrosive to metals.

Refer to SDS for additional safety information.
