

AERO® Acid Cleaners are concentrated, aggressive and fast-acting

# aero®

## Briter 601 Cleaner and Brightener

**For Use On Non-ferrous Metal Surfaces  
Such As Buses, Trucks, Trailer Bodies, Etc.**

**Will not etch or harm good paint when used as directed, however this product is harmful to windshields and glass surfaces.**

Briter 601 is a concentrated acid, solvent, detergent compound. Especially designed for those "problem" cleaning jobs that regular alkali cleaners, such as soaps, cannot do. Easy to apply. Follow simple directions and get results no other cleanser can give you.

**IMPORTANT:** Do not allow Briter 601 to dry on surface as rinsing is very difficult when dry.

### DIRECTIONS

Mix Briter 601 with 30 to 40 parts water, depending on condition of surface to be cleaned.

Apply with spray nozzle pressure or fibre brush. Use liquid directly to surface area working always from bottom to top on vertical surfaces to prevent streaking.

**ALLOW 3 MINUTES FOR COMPLETE ACTION.** Rinse with hose or brush, flushing thoroughly with clear water until all suds are gone and no chemical is left on surface. Be sure surface is rinsed well before chemical dries.

### HIGHLIGHTS

- Concentrated
- Excellent brightener for trucks and buses
- Economical

### TYPICAL PROPERTIES

- Specific Gravity: 1.02
- pH: < 1.0
- Acidity: 5.0%
- Appearance: Clear, colorless liquid
- Odor: Acidic

### SAFETY CAUTIONS

Keep out of reach of children. Read label and SDS before use. Toxic if swallowed. Harmful if inhaled. Causes severe skin burns and eye damage. May be corrosive to metals.

Refer to SDS for additional safety information.
