

AERO® line of Insecticide Products contains a full range of ready-to-use residual and space spray products for all indoor and outdoor pest control needs.

# aero®

## Malathion Fogging Concentrate

For Outdoor use only for temporary relief from the annoyance of mosquitoes, flies and certain other small flying insects.

### DIRECTIONS

Spray or fog at the rate of 48 gallons per hour at a vehicle speed of 5 M.P.H. to treat a swath width of 300 feet. Apply early in the morning when conditions are favorable and when temperatures are expected to go above 65°F.

Apply 0.5 to 1.3 gallons(0.23 lbs ai) of this product per acre.

Do not apply more than 0.23 lb ai/A/day. Only treat when mosquitoes are swarming or biting. Do not retreat a site more than 3 times in any one week. However, more frequent treatments may be made to prevent or control a threat to public and/or animal health determined by a state, tribal or local health or vector control agency on the basis of documented evidence of disease causing agents in vector mosquitoes or the occurrence of mosquito-borne diseases in animal or human populations, or if specifically approved by the state or tribe during a natural disaster recovery effort.
