All AERO® Disinfectant Cleaners are federally registered with the EPA

The Big 1

◆ CLEANER ◆ DETERGENT ◆ DEODORIZER ◆ MILDEWSTAT (on hard, inanimate surfaces) ◆ DISINFECTANT ◆ FUNGICIDE (against pathogenic fungi) ◆ SANITIZER ◆ 'VIRUCIDE ◆ Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu)

This product is a phosphate free formulation designed to provide effective cleaning, deodorization, sanitization and disinfection specifically for hospitals, nursing homes, schools, food processing plants, food service establishments, transportation terminals, office buildings, manufacturing facilities, lodging establishments, retail businesses and athletic/recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination. This product, when used as directed, is formulated to disinfect inanimate, hard surfaces: walls, floors, sink tops, toilet bowls, tables, chairs and telephones. For larger areas such operating rooms, patient care facilities and restrooms, this product is designed to provide both general cleaning and disinfecting. This product deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls, and other areas which are prone to odors caused by microorganisms. This product sanitizes previously cleaned and rinsed non-porous food contact surfaces such as tanks, chopping blocks, counter tops, drinking glasses and eating utensils.

DIRECTIONS

DISINFECTION - To disinfect inanimate, hard surfaces add 2 ounces of this product per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use.

SANITIZATION - For use in restaurants, dairies, food processing plants, and bars. When used as directed, this product is an effective sanitizer against Escherichia coli and Staphylococcus aureus. Remove all gross food particles and soil from areas, which are to be sanitized, with a good detergent, pre-flush, pre-soak or pre-scrape treatment. Rinse with a potable water rinse. To sanitize previously cleaned and rinsed non-porous food contact surfaces prepare a 200-400 ppm active quaternary solution by adding 2-4 ounces of this product to 3.5 gallons of water (or equivalent use dilution).

This product when used on environmental, inanimate, hard, non-porous surfaces at 2 ounces per gallon of water exhibits effective virucidal activity against Influenza A2/Japan (representative of the common flu virus), Herpes Simplex Type 1 (causative agent of fever blisters), Adenovirus Type 2 (causative agent of upper respiratory infections), Vaccinia virus (representative of the Pox virus group), Human Immunodeficiency Virus Type 1 (HIV-1), Bovine Viral Diarrhea Virus (BVDV), Human Coronavirus (ATCC VR-740, Strain 229E), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Norovirus (Norwalk Virus), Feline calicivirus (FCV), SARS Associated Coronavirus, Avian Influenza A and Porcine Respiratory & Reproductive Syndrome Virus (PRRSV) (Strain NVSL).

HIGHLIGHTS

- Hospital-grade disinfectant
- Food contact surface no-rinse sanitizer
- Odorless, colorless
- Effective cleaner/deodorizer
- Effective against: HIV-1, Hepatitis B, Hepatitis C, VISA, MRSA, Canine Parvovirus (CPV)

TYPICAL PROPERTIES

- Specific Gravity: 1.04
- pH: 11
- Active Quaternary Ammonium Chlorides: 4.5%

INERT INGREDIENTS 95.50%

Appearance: ClearFragrance: Odorless

SAFETY CAUTIONS

KEEP OUT OF REACH OF CHILDREN. CORROSIVE: Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. Harmful if swallowed. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Refer to SDS and product label for additional safety information and directions for use.
