Spray Mister 1000 Spray Buff

SPRAY MISTER 1000 is a spray buff that is compatible with all floor finishes. The sparkling transparent color is the first thing you notice about this premium product. A fine mist in front of a conventional or high speed floor machine produces a mirror-like gloss in half the time of normal spray buff products. Not only will it take you less time to spray buff an area but you will also enjoy the pleasant fragrance left when using **SPRAY MISTER 1000**.

DIRECTIONS

This product is designed to be used as is or it can be diluted with an equal part of water.

Fill spray container with material and adjust nozzle to finest setting.

Position a polishing or spray-buff pad beneath machine brush or holder. For best results work an area about 4' x 4' at a time. Continue to work one small area at a time until entire floor has been covered. If pad becomes too soiled, as evidenced by grabbing tendency, turn pad over and continue. Sweep any residue remaining on floors after spray buffing.

Spray or mop on Spray Buff.

Manufactured exclusively by:
ABC COMPOUNDING CO., INC. • P. O. Box 16247 • Atlanta, GA 30321
