## Liquid VIII

### CONCENTRATE

### NON-SELECTIVE WATER SOLUBLE WEED KILLER

This product is a liquid non-selective, general herbicide which is designed to be used where control of all vegetation is desired. It produces rapid kill of all succulent vegetation. Translocation and root absorption produce extensive root kill of weeds and provides long term control. Sufficient moisture from rainfall or artificial means is necessary after treatment to carry the chemical into the roots of the weeds. This product is recommended for non-crop areas such as RAILROADS, HIGHWAYS, PIPELINES, TANK FARMS, LUMBER YARDS, FENCE ROWS and PARKING LOTS. This concentrate can be sprayed or sprinkled on. If sprayed, direct the spray to the soil at the base of the weeds and adjust for coarse spray to prevent drifting.

FOR COMMERCIAL AND INDUSTRIAL USE ONLY.  
NOT FOR USE ON AGRICULTURAL ESTABLISHMENTS.
