

AERO® Municipal Products are effective degreasers and deodorants for sewage treatment facilities.

aero®

Cherry Sewer Degreaser

- **Digesters • Sewer Lines**
- **Wet Wells • Pumping Stations**

WILL LIQUIFY AND CONTROL NORMAL GREASE CAKE, SCUM, FOAM & SURFACE ORGANIC BUILD UP

A special blend of solvents and biodegradable emulsifiers formulated especially for sewage treatment. If used properly, This product will liquify and control normal grease cake, scum, surface organic build-up, foam, etc. on the surface and walls of sewage treatment vessels.

DIRECTIONS

DIGESTERS- Introduce through ports or inspection holes at top of digester (20 to 30 gallons - more if needed) then add 500 to 2000 gallons of water to wet down grease and scum cake. Continue to wet down cake daily, then add 2 gallons in sludge compartment to attack grease from bottom.

STUCK FLOATING DIGESTER COVERS- Add digest aide around outer perimeter of cover and immediately wet down with pressure. Continue until cover is free.

WET WELLS, PUMPING STATIONS, AND SEWER LINES- Drip directly into wet wells and pumping stations. Add directly into sewer lines and force mains to remove grease build up.

PREVENTIVE MAINTENANCE- Drip digest aide into influent at rate of 1/4 to 1 1/2 ppm (45 drops/min. equals one gallon in 24 hours). Add 3-4 gallons weekly to lift stations.

HIGHLIGHTS

- Water-based degreaser
- Economical

TYPICAL PROPERTIES

- Specific Gravity: 1.05
- pH: 13.0
- Appearance: Dark amber liquid
- Fragrance: Cherry

SAFETY CAUTIONS

Keep out of reach of children. Read label and SDS before use. Causes severe skin burns and eye damage. May be corrosive to metals.
