

HIGHLIGHTS

Prevents grease build up
Destroys odors naturally

TYPICAL PROPERTIES

Specific gravity: 1.0

pH: 8.0

Effective temperature range: 45-120°F

Contents: Bacillus Spore Blend Lipase Enzyme

- Protein digesting microbes
- Starch digesting microbes
- Cellulose digesting microbes
- Fat, oil, grease digesting microbes

Microbial count: 200 billion cfu/gallon

Appearance: Clear green liquid

Odor: Fresh

DILUTION RATIO

1:32

BIO LIVE HARD SURFACE FLOOR CLEANER

- Eliminates conventional hazardous cleaners
- Prevents grease build-up and reduces slippery floor surfaces on hard stone kitchen floors
- Utilizes the powerful waste digesting abilities of specifically selected beneficial microbial cultures, and the natural enzymes produced by these cultures
- Destroys odors naturally without the need of a fragrance or masking agent
- Breaks down proteins, carbohydrates, animal and vegetable fats, oils, and cellulose for effective waste digestion and odor reduction
- Eliminates carry over and odors in grease traps, reduces the need for pump-outs

This product is a liquid concentrated microbial cleaner for use on hard surface floors such as quarry tile and concrete in commercial kitchens and other food preparation areas. It combines biodegradable surfactants for immediate cleaning and a blend of specifically selected microbial cultures that penetrate deep into tile pores for the breakdown of residual organic material. The cleaner is recommended to be emptied down the drain line where it will offer an effective drain and grease trap treatment. Regular use prevents grease build-up, reduces slippery floor surfaces, maintains a sanitary and odor-free floor, reduces organic material buildup in drains and eliminates conventional hazardous cleaners. Product must be diluted before use.

Clean or mop area. No rinsing necessary.

WARNING: keep out of reach of children. Read label and sds before use. Causes serious eye irritation.

Refer to SDS for additional safety information.
