Ants, Cockroaches and Other Listed Crawling Insects
- **For Use in Homes and Non-Food Areas of Kennels, Warehouses, Theaters, Office Buildings, Schools, Motels, Hotels, Restaurants, Food Processing Facilities, and other Commercial, Industrial, and Institutional facilities.**

DIRECTIONS: SHAKE WELL BEFORE USING

FOR SPOT TREATMENT: To Kill Ants, Black Widow Spiders, Carpet Beetles, Cockroaches, Crickets, Scorpions, Silverfish, Sowbugs, and Spiders: Spray areas where these insects are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators, and cabinets; and around garbage cans, plumbing, and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, spray ant trails and around doors and windows, and wherever else these pests may find entrance.

To Kill Brown Dog Ticks and Fleas: Thoroughly spray as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings where these pests may be present. Pet's old bedding should be removed and replaced with clean, fresh bedding after treatment.

DO NOT SPRAY PETS WITH THIS PRODUCT. Pets should be treated with a registered flea and tick control product prior to reentering treated areas.

FOR CRACK AND CREVICE TREATMENT: To Kill Ants, Black Widow Spiders, Brown Dog Ticks, Carpet Beetles, Cockroaches, Crickets, Fleas, Scorpions, Silverfish, Sowbugs, and Spiders: Apply spray in small amounts directly into cracks and crevices. Equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where these insects hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food handling surfaces.

Flies and Mosquitoes: Use only outdoors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios, and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment every three weeks.

AERO brand aerosols are the finest available anywhere. A full range of solutions, from cleaning, to pest control. No other products can match our standards or our commitment to quality.

HIGHLIGHTS

- Residual and contact spray
- Fast knock-down
- Highly effective

TYPICAL PROPERTIES

- Specific Gravity: 0.8
- **ACTIVE INGREDIENTS:**
Prallethrin 0.030%
Esfenvalerate 0.050%
N-Octyl bicycloheptene dicarboximide 0.239%
Other Ingredients 99.681%
- Odor: Insecticidal
- Propellant: Carbon dioxide
- Spray Characteristics: Coarse mist
- Net Weight: 14 ounces

SAFETY CAUTIONS

FLAMMABLE: Keep away from heat, sparks, and open flame. Do not use under or around gas stoves, water heaters, or other gas utilities (including home heating units) with open flames or pilot lights. Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

Refer to SDS and product label for additional safety information and directions for use.
