

Food Equipment Lube

SILICONE BASED SPRAY

FOOD EQUIPMENT LUBE is a silicone-based spray for use as a lubricant with incidental food contact. May be used on machine parts and equipment in locations in which there is potential exposure of the lubricated part to food. For food plant and other industrial use.

DIRECTIONS

1. Thoroughly clean surface to be sprayed.
2. Hold can 8 to 10" (20-25cm) from surface. Spray lightly with a sweeping motion. Avoid over spraying. On sticking parts, work back and forth to allow good penetration.
3. Wipe off excess with a clean cloth.

Avoid contamination of food in the application and storage of this product.

AERO brand aerosols are the finest available anywhere. A full range of solutions, from cleaning, to pest control. No other products can match our standards or our commitment to quality.

HIGHLIGHTS

- Silicone Lubricant
- Non-staining
- Low odor
- May be used for incidental food contact

TYPICAL PROPERTIES

- Specific Gravity: 0.780
- Viscosity: <100 cps
- Propellant: Hydrocarbon
- Spray Characteristics: fine mist
- Solids: 10% Food Grade Silicone
- Appearance: Clear colorless liquid
- Odor: Mint like
- Net Weight: 13 ounces
